

# AMP Technology Migration: Updates to the MY 2021 Release Schedule

June 29, 2022

Julia Tremaroli, Project Manager, Data Operations

Shelley Kong, Data Ops Associate, Data Operations

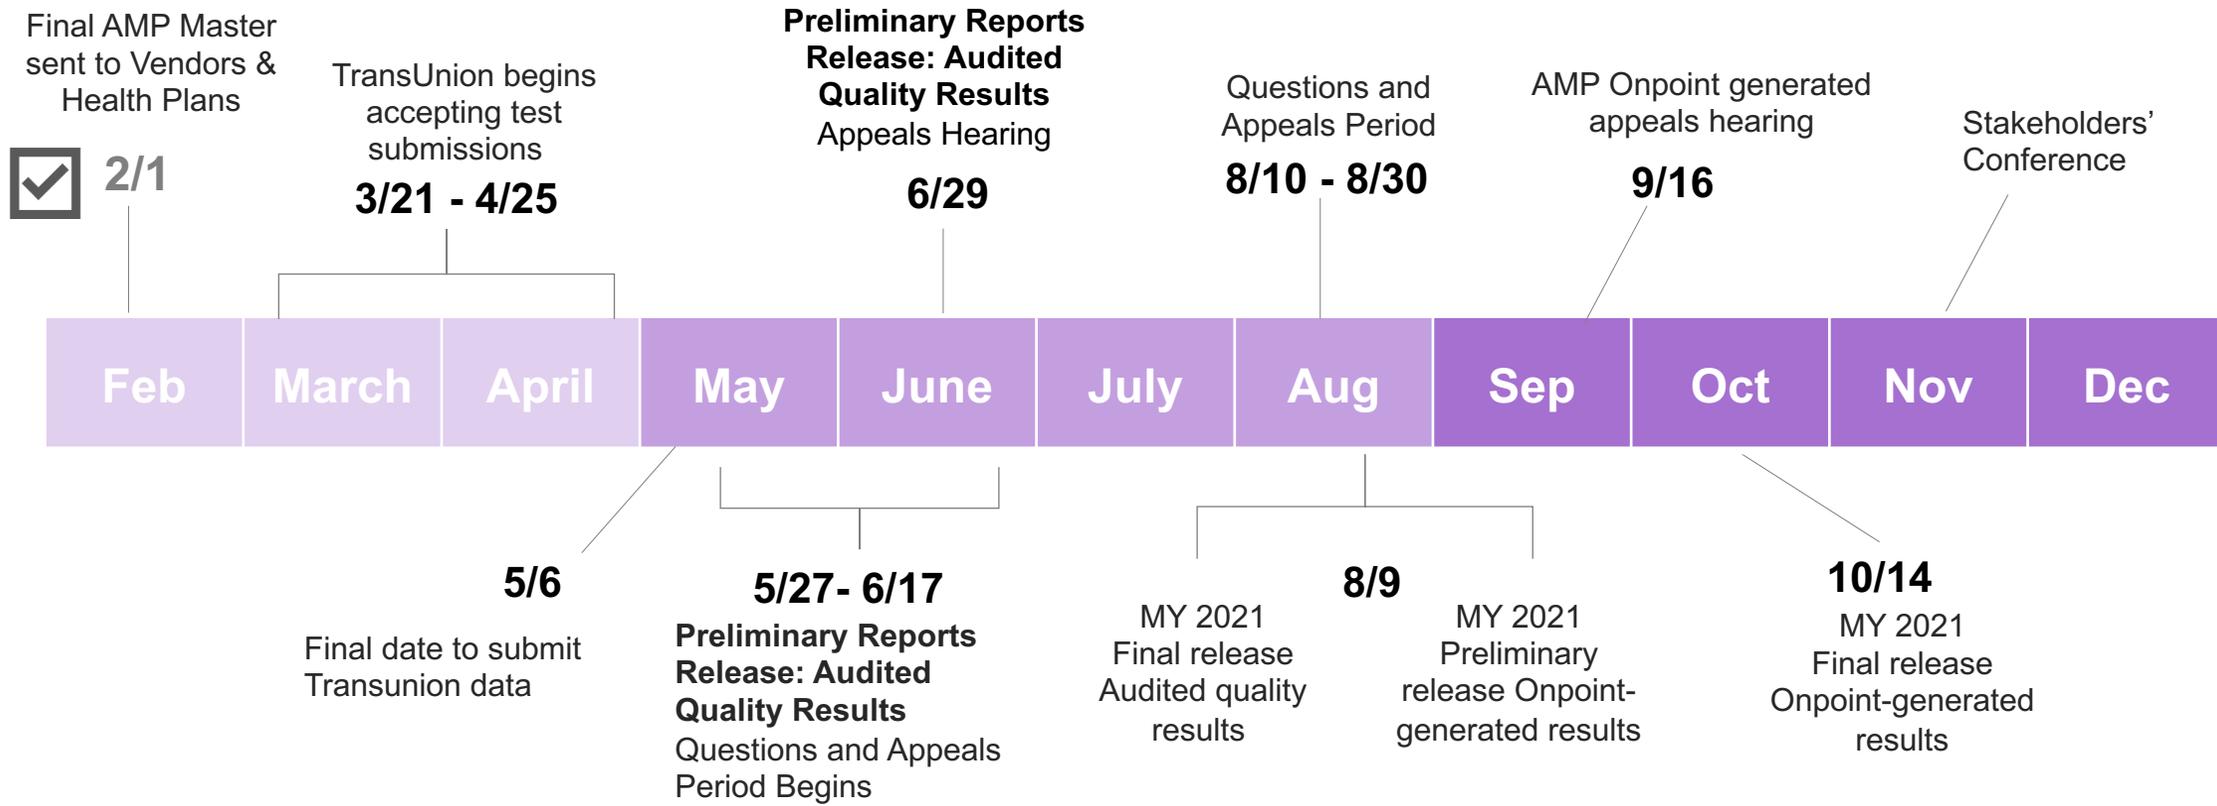

# AMP MY 2021 Reporting Portal and Timeline

# Timeline for our technology solution transition

AMP program staff are here at every step to ease the MY 2021 transition

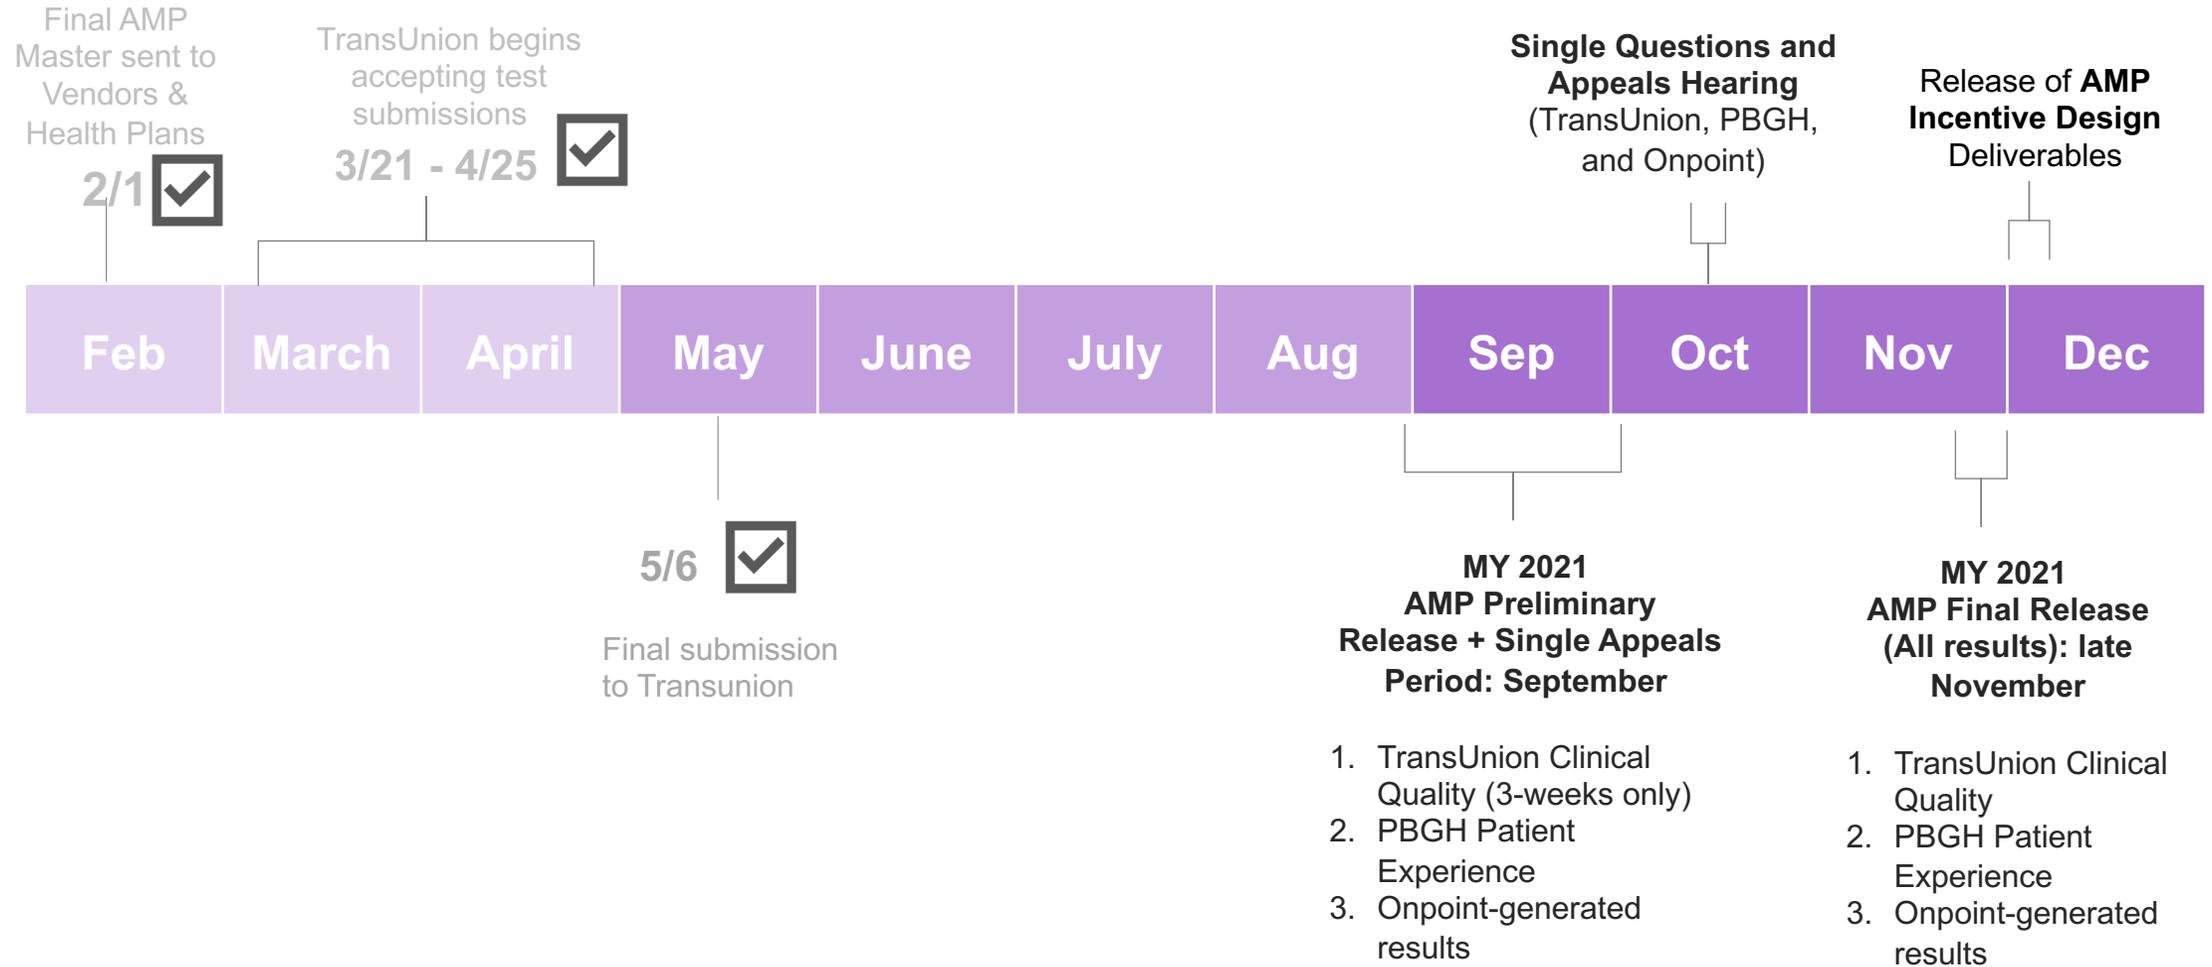

- Onpoint's Performance Reporting Portal (PRP) will now serve as the single source for AMP Program portal needs, allowing access to both **PO- and member-level reporting in one location.**
- We will release TransUnion Clinical Quality, PBGH Patient Experience, and Onpoint-generated results **all at the same time** via Onpoint's PRP
  - AMP Preliminary Results Release will occur **at the end of August.**
  - The Questions and Appeals periods will be **combined and extended through September** to allow participants additional time to thoroughly complete all questions and appeals.
  - Data resubmissions, if needed, will occur **up until early October.**
  - AMP Final Results Release will occur **at the end of November** with the Incentive Design Deliverables being available shortly thereafter.
- We will use our email newsletters, webinars, and other means to provide you updates and support to help ensure a smooth transition
  - Thank you for your continued feedback, questions, and patience as we work to enhance your AMP experience

# MY 2021 AMP Deliverables Timeline - Previous Timeline

See [MY 2021 AMP Program Guide](#) for detailed program timeline.

# AMP Communications

Ensure you're receiving emails from IHA

- We regularly send out emails—mainly the monthly newsletter—to all our stakeholders and subscribers that contain information about IHA and our AMP program from [amp@iha.org](mailto:amp@iha.org).
- If you're not getting our emails, you may need to subscribe or you may have opted out in the past (which means you'll need to opt in now).
  - The easiest way to subscribe or check if you need to opt back in is by going to our [newsletter form](#).
  - On the form, start filling out your email address.
  - If the below blue message appears below the email box, your email is unsubscribed and you need to re-subscribe. Click the blue link and then check your inbox for our re-subscription email. Follow the instructions in the email to update your preferences and re-subscribe to our emails.
    - Don't see the re-subscription email? Check your spam folder. If you still don't see it, go to the next page.
  - If you don't get the blue message when you are filling out your email address, continue filling out the form, check which updates you would like to receive, and then hit “submit” when done to make sure you're subscribed.

 Integrated  
Healthcare  
ASSOCIATION

Thanks for your interest in subscribing to IHA's communications! Complete this form to help us understand which topics you want to hear about.

[Looks like you've opted out of email communication. Click here to get an email and opt back in.](#)

# AMP Communications

Ensure you're receiving emails from IHA

- Unfortunately, just because you are subscribed to our emails doesn't mean they'll show up in your inbox. Sometimes organizations block emails sent by marketing automation software.
- We recommend sending this message to your IT department so that you and your team get our emails in the future.

Have questions or need additional assistance getting our emails?

Email [marketing@iha.org](mailto:marketing@iha.org) and we'd be happy to help!

## Sample message:

Hello,

I work with Integrated Healthcare Association (IHA) regularly and would like to request that we add them to our email allow list. IHA frequently sends emails from the below domain and IP addresses that are important to my work. Is it possible to add the below criteria to (insert organization)'s allow list?

All emails coming from the domain @iha.org

All emails coming from the below IP addresses:

- 54.174.60.0/23
- 143.244.80.0/20
- 18.208.124.128/25
- 54.174.53.128/30
- 158.247.16.0/20
- 54.174.59.0/24
- 54.174.63.0/24
- 3.93.157.0/24
- 54.174.52.0/24
- 139.180.17.0/24
- 54.174.57.0/24

# Performance Reporting Portal (PRP) 101

# General Performance Reporting Portal (PRP) Information

The PRP will house all results MY 2021 and beyond (with refreshed MY 2020 included)

- Onpoint's Performance Reporting Portal (PRP) will now serve as the single source for AMP Program portal needs, allowing access to both **PO- and member-level reporting in one location.**

The AMP Analytics Portal will remain your historical data source

- IHA's AMP Analytics portal will contain **historical AMP results**—MY2020 and prior years'—for reference and QA purposes.
- IHA will also continue using this portal for other items such as Participation Confirmation (contracting).

Note: The PRP is a new resource. Onpoint and IHA continue to work through functionality improvements, so certain views will change for the release in late August.

# General Performance Reporting Portal (PRP) Information

Beginning MY 2021, the PRP will house all results going forward

# Onpoint PRP Account Set Up

# Important information for PRP Access

IHA and Onpoint require multifactor authentication

- Because the PRP allows member-level detail information – including PHI – we are pursuing **Multi Factor Authentication (MFA)** to maintain security.
  - Multifactor authentication requires users to provide **two or more pieces of evidence to verify a user**. For the PRP, this will be a password and a separate code sent to your cell phone.
- **IHA distributed a form to Primary Users** in mid-June to collect contact information to set up MFA.
- Note that only **Primary Users** received the email with the Online Form
  - If you are a Primary User and did not populate the form, please do so ASAP.
    - Please reach out to [amp@iha.org](mailto:amp@iha.org) if you have issues with accessing the form.
  - If you are a Primary User and did not receive an email with the form, please reach out to [amp@iha.org](mailto:amp@iha.org) ASAP.

# Admin Access vs User Access

Primary Users will have Admin Access, Secondary Users will have User Access.

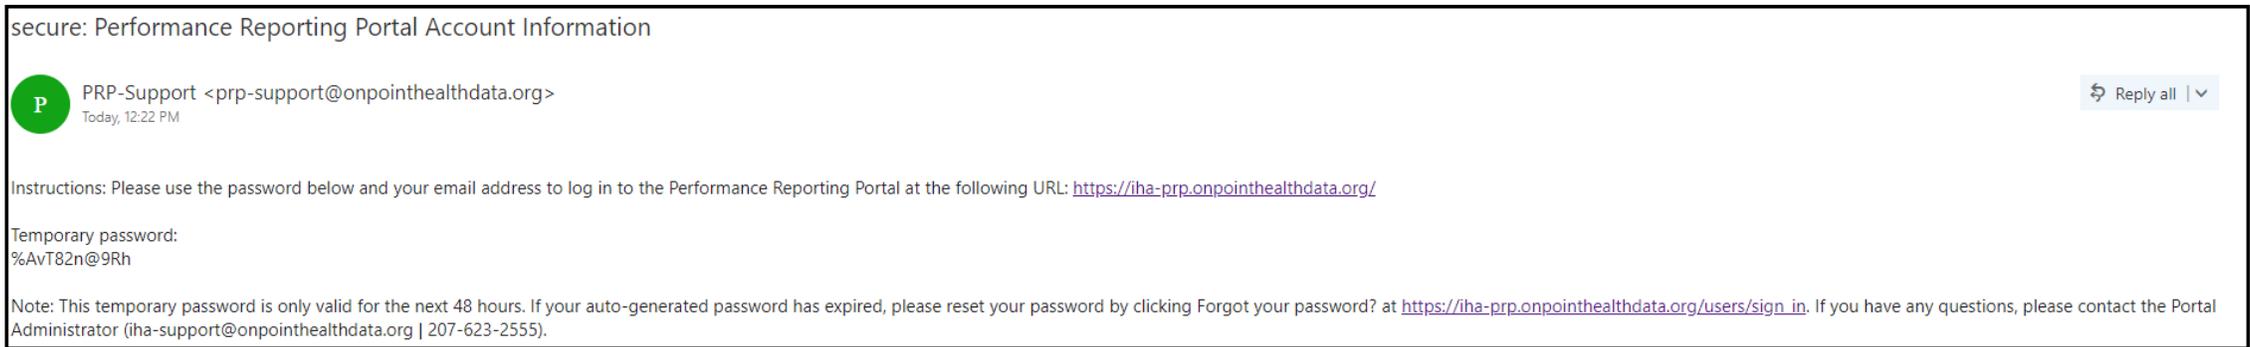

- Please see the differences between Admin access and User access in the PRP:

Function	Admin	User
View Measure Results	✓	✓
Review Documentation	✓	✓
Customize Dashboard View	✓	✓
Add/Edit/Deactivate Contacts from organization	✓	

- Note that the PRP contains PHI and member level data, so **it is critical that Primary Users/Admins regularly update and manage user access for Secondary Users at their organization.**

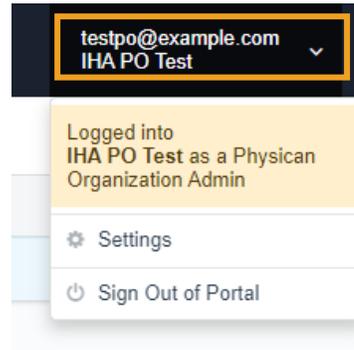

# Setting up PRP Access for Admins/Primary Users

- **If you already have an active PRP account**, you do not need to re-enroll in multifactor authentication.
  - Existing PRP users will not receive a Welcome email from Onpoint since you already have an active PRP account. If you have questions on logging in, please reach out to [amp@iha.org](mailto:amp@iha.org).
- In mid-July, Primary Users who do not already have an active PRP account AND filled out the Online Form will receive a **Welcome Email from [prp-support@onpointhealthdata.org](mailto:prp-support@onpointhealthdata.org)**.
- Please follow the instructions provided in the email to set up your account
  - Links provided in the Welcome Email **will expire after 48 hours**, so please pursue your account setup promptly

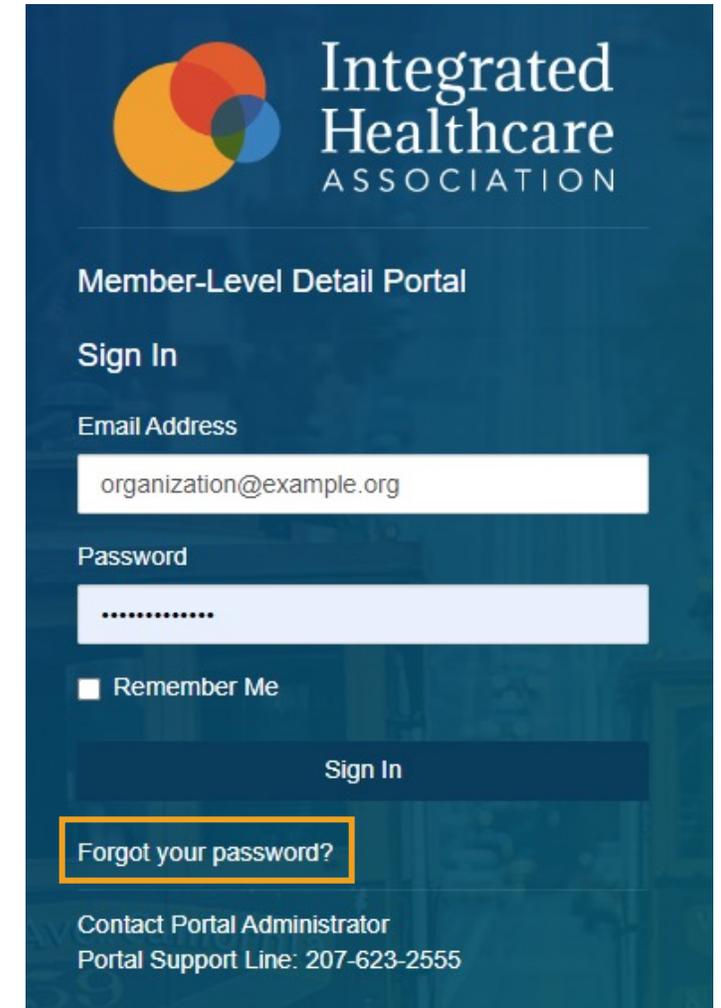

# Setting up PRP access for Admins/Primary Users

- However, if 48 hours have expired, **you can still set up your account** using the "Forgot your password?" feature and follow the instructions as prompted
- Upon accessing your account, please confirm that the **organization(s) you manage are correctly displayed** in the upper right-hand corner of the PRP. If not, please reach out to [amp@iha.org](mailto:amp@iha.org).

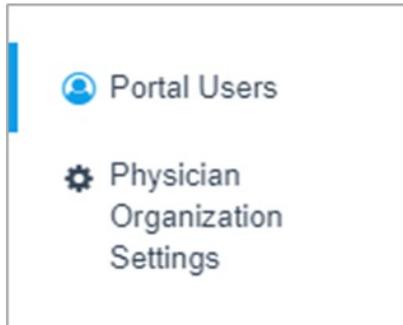

- **Organization admins will then set up additional users' accounts** with multi-factor authentication for their organization.
- IHA will be available in July to help admins create the necessary user accounts for their organization.
  - Our goal is to make sure each organization has their PRP accounts set up securely prior to our Preliminary Results Release at the **end of August**.

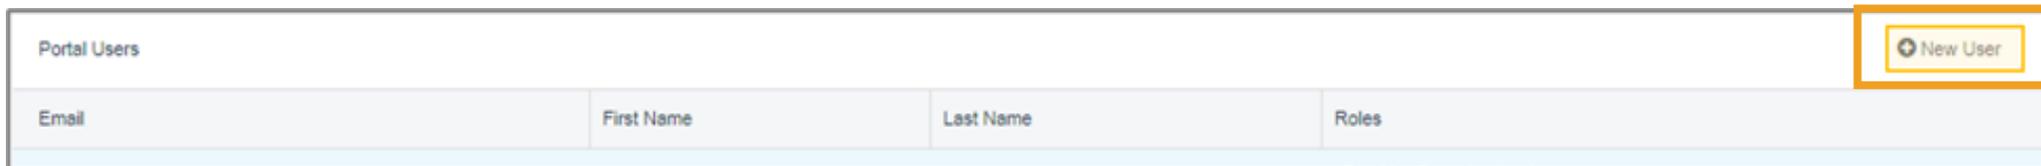

# Setting up PRP access for Secondary Users

Primary Users will use Admin capabilities to add secondary users from their organization by following the steps outlined below:

**Step 1:** Navigate to the **Portal Users** tab on the left panel of your screen

**Step 2:** Click "**New User**" in the upper right corner of your screen

# Setting up PRP access for Secondary Users cont.

**Step 3:** Populate the fields with the appropriate information

- If you want the user to have Admin capabilities (managing contact information), then select “Physician Organization Admin” under Select a Role. For all other users, select “Physician Organization User.” Note that organizations can have more than one designated Admin.
- Remember to check “Send temporary password to user via secure email” to ensure user receives automated email for PRP setup

**Step 4:** Click “Create User.”

- Once a secondary user has been added to the PRP by an Admin/Primary User, the User will receive the automated Welcome Email instructions on how to set up access.

**Note:** For users associated with more than one PO, the administrator must individually assign users to each relevant organization.

The screenshot shows a web form for creating a user. The 'Basic Information' section includes a dropdown menu for 'Select A Role' with 'Physician Organization User' selected. Below this are text input fields for 'Notes', 'Email', 'First Name', and 'Last Name'. A 'Password' field is shown with a 'view' link. A checkbox labeled 'Send temporary password to user via secure email' is checked and highlighted with an orange border. Below the checkbox is a note: 'Each user's password will be emailed securely to their authorized email address and is only valid for the next 48 hours. Upon creating or updating a user, their password will no longer be viewable. Click the "Create User" button located at the bottom of this form to send the secure email.' The 'Multi-Factor Authentication' section includes a note about authentication codes and a 'Phone Number' input field with a note: 'Each user's phone number (XXX-XXX-XXXX format) is used only to generate a multi-factor authentication code. Phone number extensions are not allowed.' A blue 'Create User' button is at the bottom.

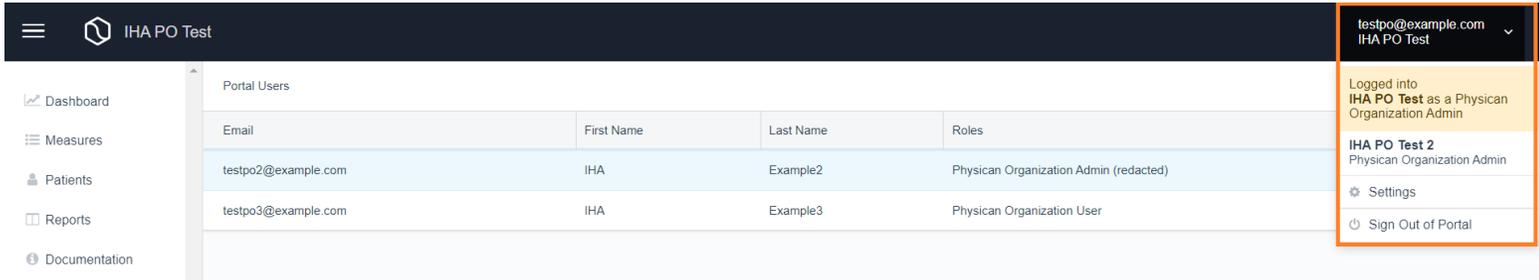

# Setting up PRP access for Secondary Users cont.

**Step 5:** For users who manage multiple organizations, select the drop-down menu next to your name at the top right-hand corner. Then, select the organization you would like to view.

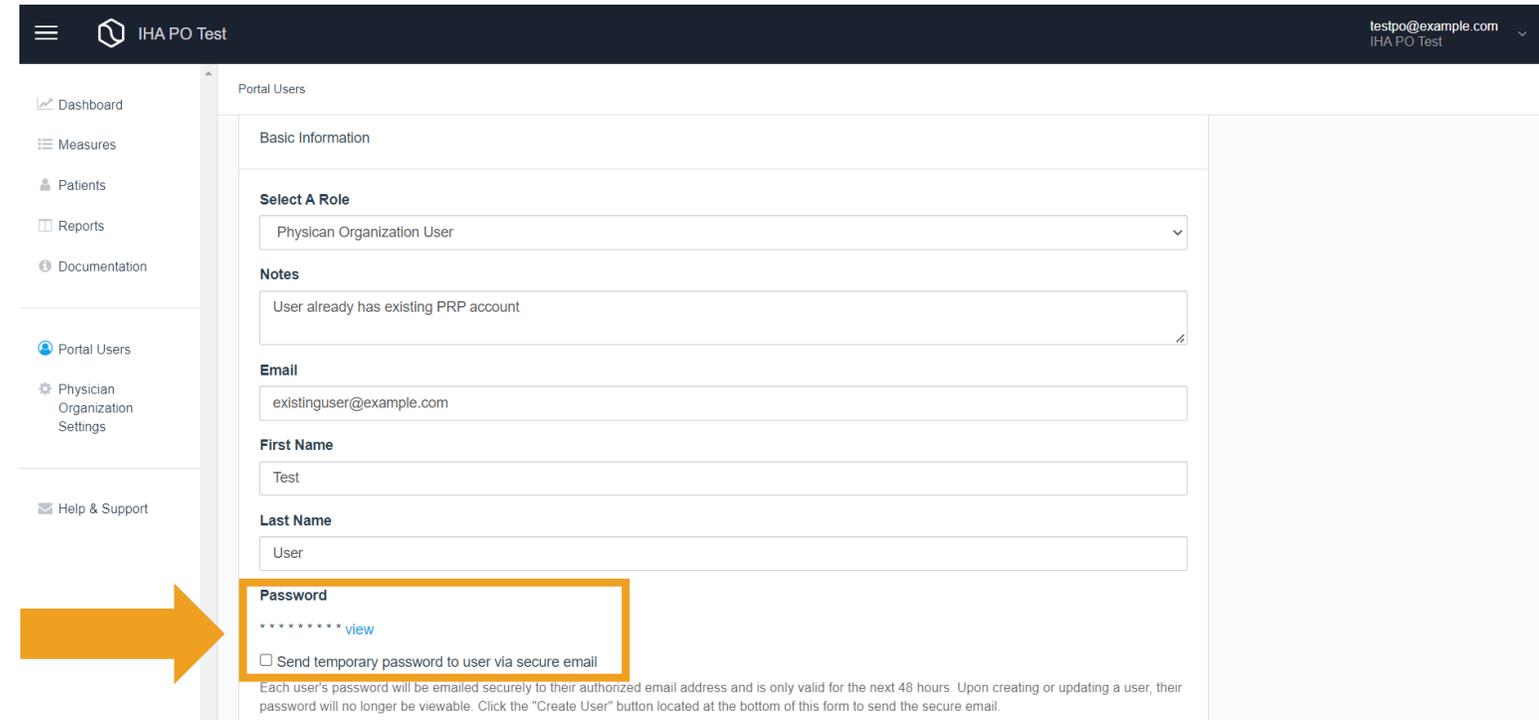

- The drop-down menu will display a list of organizations that you manage.
- The system administrator will need manage user access for each organization individually.

**Step 6:** Navigate to the "Portal Users" tab on the left panel of your screen. Then, select "New User" in the upper right corner of your screen.

- Populate the fields with the appropriate information
- Note: If the user already has access to a different organization within the PRP, please **do not** select "Send temporary password to user via secure email" or else it will reset their existing password.

The screenshot shows the IHA PO Test portal interface. On the left is a navigation menu with options: Dashboard, Measures, Patients, Reports, and Documentation. The main content area displays a table titled "Portal Users" with columns for Email, First Name, Last Name, and Roles. The table contains two entries: testpo2@example.com (IHA, Example2, Physician Organization Admin (redacted)) and testpo3@example.com (IHA, Example3, Physician Organization User). On the right side, a user selection dropdown menu is open, showing the current user (testpo@example.com) and a list of organizations: IHA PO Test and IHA PO Test 2 (Physician Organization Admin). The "IHA PO Test 2" option is highlighted.

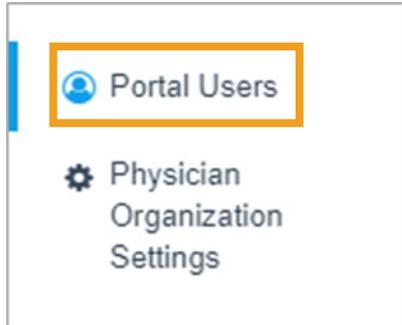

The screenshot shows the "New User" form in the IHA PO Test portal. The left navigation menu is updated to include "Portal Users", "Physician Organization Settings", and "Help & Support". The main form area has a "Basic Information" section with a "Select A Role" dropdown menu set to "Physician Organization User". Below this is a "Notes" field containing the text "User already has existing PRP account". The "Email" field contains "existinguser@example.com", "First Name" contains "Test", and "Last Name" contains "User". The "Password" field is highlighted with an orange box and contains a masked password with a "view" link. Below the password field is a checkbox labeled "Send temporary password to user via secure email" which is currently unchecked. A large orange arrow points from the text in the previous block to this checkbox. At the bottom of the form, there is a note: "Each user's password will be emailed securely to their authorized email address and is only valid for the next 48 hours. Upon creating or updating a user, their password will no longer be viewable. Click the 'Create User' button located at the bottom of this form to send the secure email."

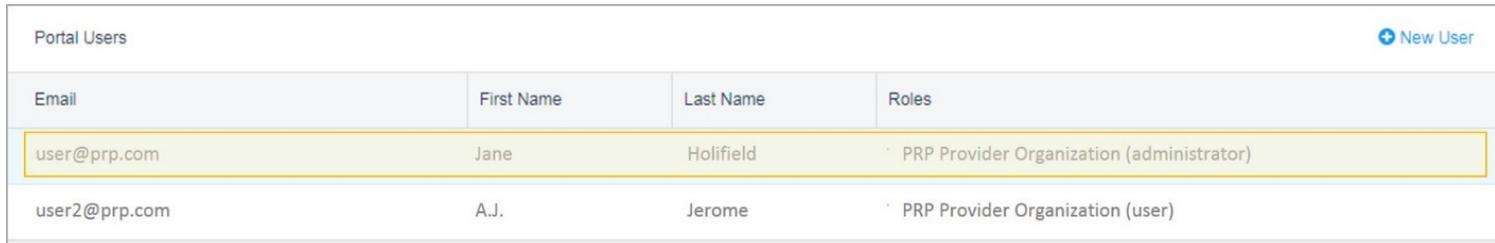

# Editing user contact information in the PRP

To edit information associated with a user at your organization, follow the steps outlined below:

**Step 1:** Navigate to the **Portal Users** tab on the left panel of your screen

**Step 2:** Select an individual credentialed user from the Portal User directory.

A screenshot of a web application showing a table of 'Portal Users'. The table has columns for 'Email', 'First Name', 'Last Name', and 'Roles'. The first row is highlighted in yellow and contains the user 'Jane Holifield' with the role 'PRP Provider Organization (administrator)'. The second row contains 'A.J. Jerome' with the role 'PRP Provider Organization (user)'. A '+ New User' button is visible in the top right corner of the table area.

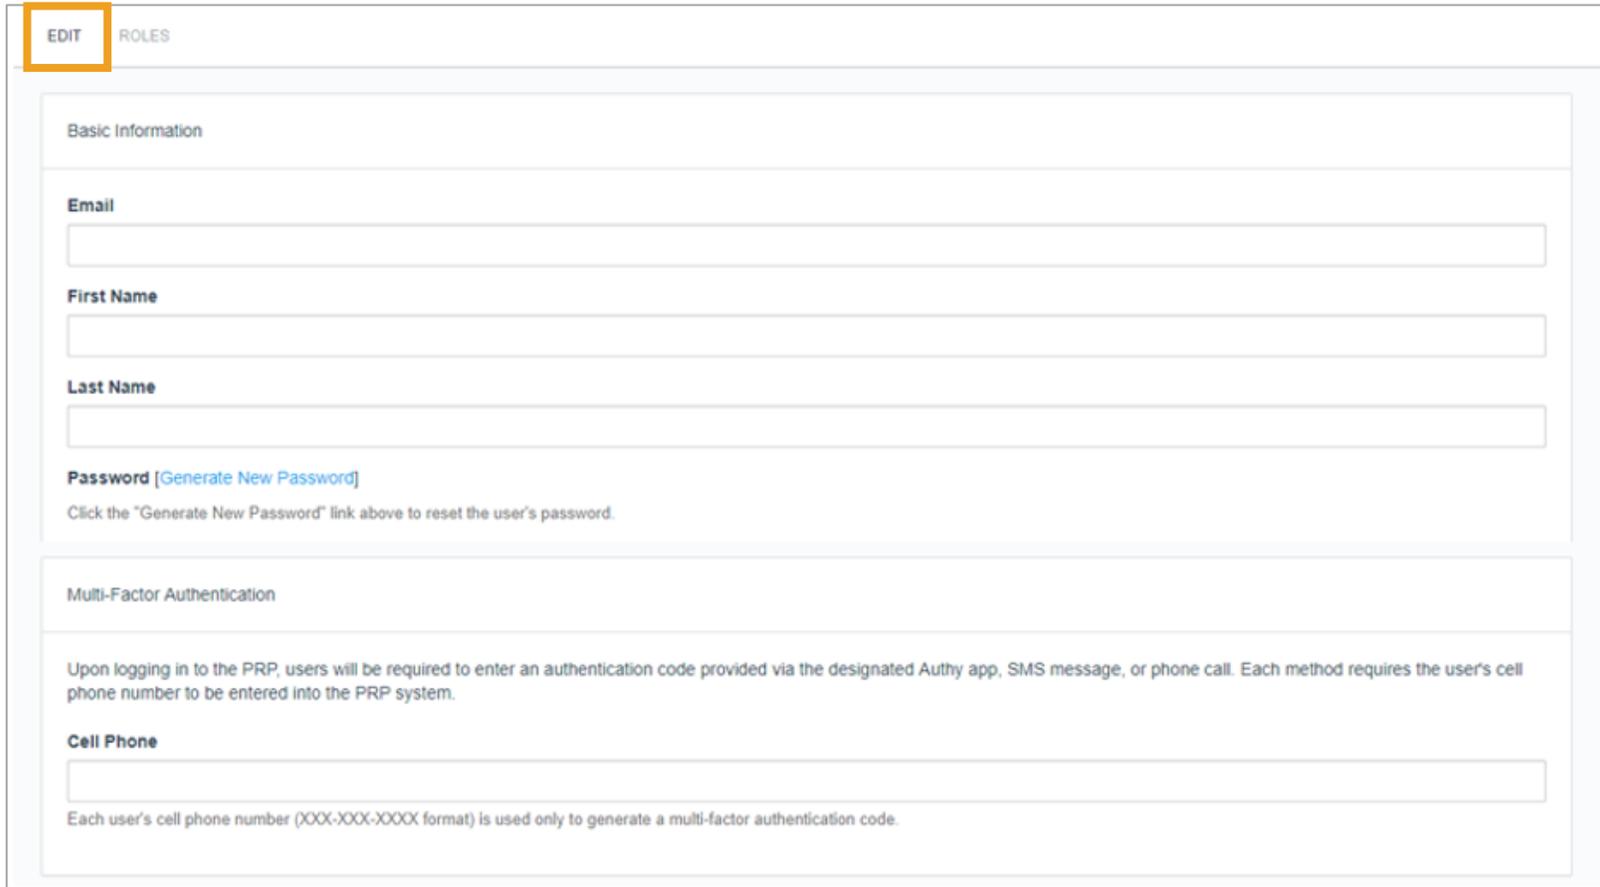

Email	First Name	Last Name	Roles
user@prp.com	Jane	Holifield	PRP Provider Organization (administrator)
user2@prp.com	A.J.	Jerome	PRP Provider Organization (user)

**Note:** For users associated with more than one PO, the administrator must individually edit users to each relevant organization.

# Editing user contact information in the PRP cont.

**Step 3:** Review the contents in the editable log-in record detailing the selected credential user's information.

- To change contact information such as Email, Name, Cell Phone, update the information on the **Edit** tab for the selected user.

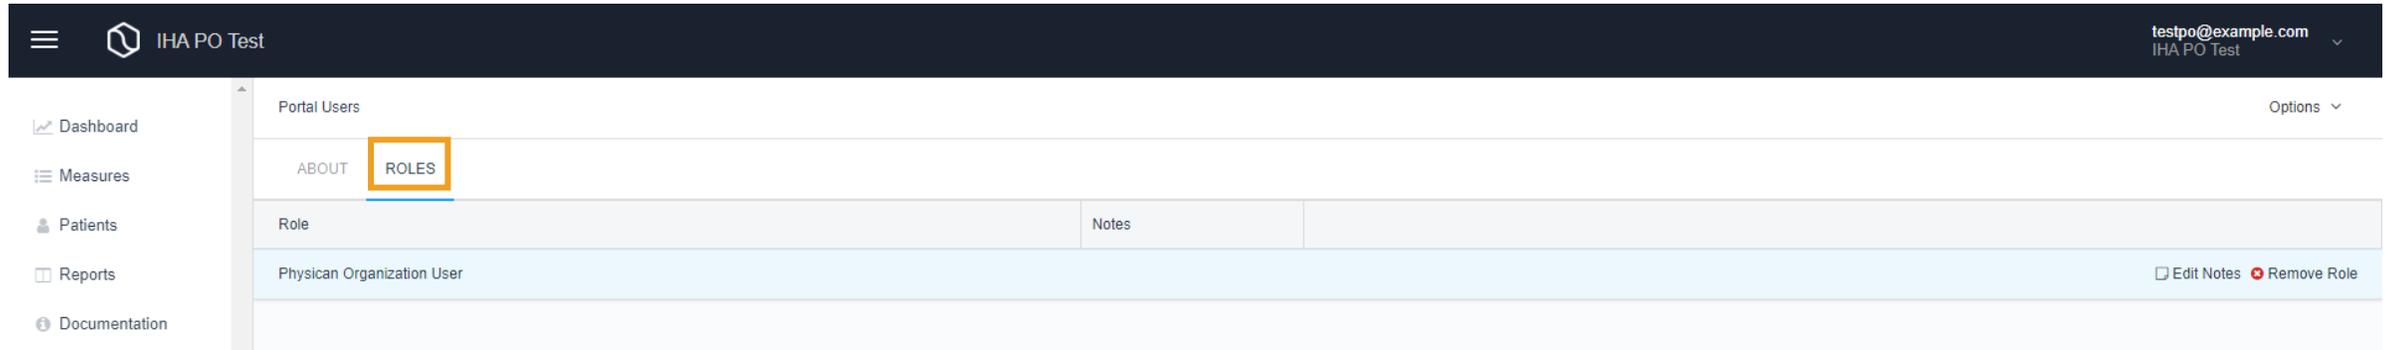

The screenshot displays a user management interface with two tabs: 'EDIT' (highlighted with an orange box) and 'ROLES'. The 'EDIT' tab is active and contains the following sections:

- Basic Information**
  - Email**: A text input field.
  - First Name**: A text input field.
  - Last Name**: A text input field.
  - Password**: A text input field with a link to [\[Generate New Password\]](#). Below it, a note states: "Click the 'Generate New Password' link above to reset the user's password."
- Multi-Factor Authentication**
  - A paragraph explaining: "Upon logging in to the PRP, users will be required to enter an authentication code provided via the designated Authy app, SMS message, or phone call. Each method requires the user's cell phone number to be entered into the PRP system."
  - Cell Phone**: A text input field.
  - A note below the field: "Each user's cell phone number (XXX-XXX-XXXX format) is used only to generate a multi-factor authentication code."

# Editing User Information in the PRP cont.

**Step 3 Continued:** Review the contents in the editable log-in record detailing the selected credential user's roles.

- To update a User's role, navigate the **Roles** tab for the selected user.

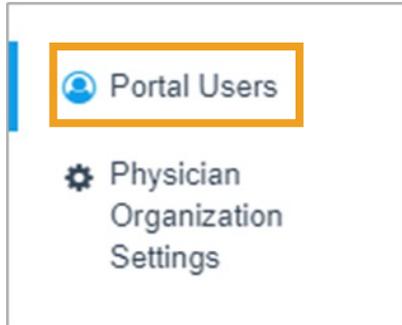

The screenshot displays the IHA PO Test user management interface. The top navigation bar includes a hamburger menu, the text "IHA PO Test", and the user's email "testpo@example.com" with a dropdown arrow. The left sidebar contains navigation links for Dashboard, Measures, Patients, Reports, and Documentation. The main content area is titled "Portal Users" and has an "Options" dropdown. Below the title, there are two tabs: "ABOUT" and "ROLES", with "ROLES" highlighted by an orange box. A table below the tabs shows a single role entry for "Physican Organization User". The table has columns for "Role" and "Notes". To the right of the table row, there are two action buttons: "Edit Notes" and "Remove Role".

Role	Notes
Physican Organization User	

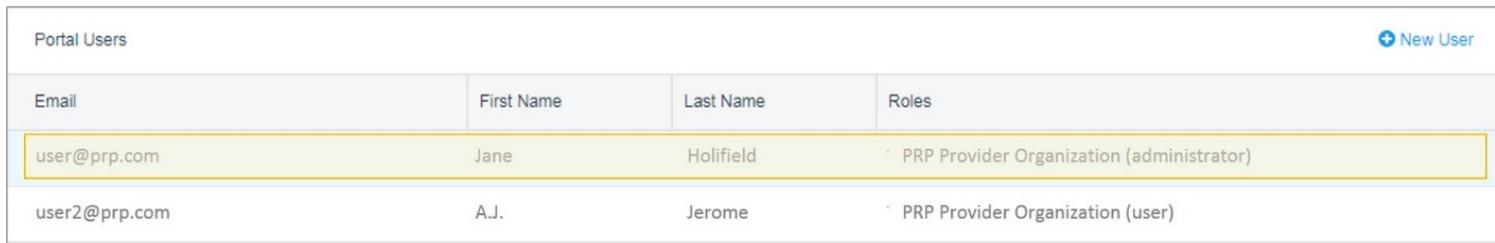

# Removing users in the PRP

To remove users no longer affiliated with your organization, follow the steps outlined below:

**Step 1:** Navigate to the **Portal Users** tab on the left panel of your screen

**Step 2:** Select an individual credentialed user from the Portal User directory.

A screenshot of a web application showing a table of 'Portal Users'. The table has four columns: 'Email', 'First Name', 'Last Name', and 'Roles'. The first row is highlighted in yellow and contains the email 'user@prp.com', first name 'Jane', last name 'Holifield', and role 'PRP Provider Organization (administrator)'. The second row contains 'user2@prp.com', 'A.J.', 'Jerome', and 'PRP Provider Organization (user)'. A '+ New User' button is visible in the top right corner of the table area.

Email	First Name	Last Name	Roles
user@prp.com	Jane	Holifield	PRP Provider Organization (administrator)
user2@prp.com	A.J.	Jerome	PRP Provider Organization (user)

**Note:** For users associated with more than one PO, the administrator must individually remove users from each relevant organization.

# Removing users in the PRP cont.

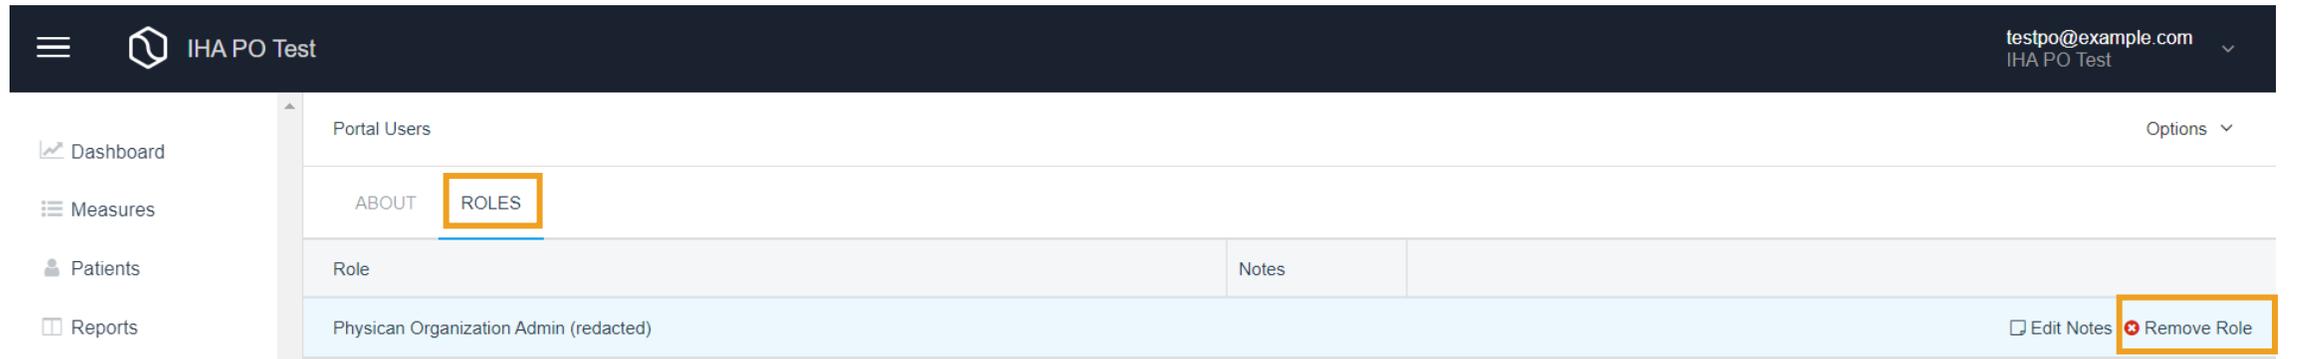

**Step 3:** Review the contents in the editable log-in record detailing the selected credential user's information.

The screenshot shows the 'Portal Users' management page in the IHA PO Test system. The header includes a navigation menu on the left, the system name 'IHA PO Test', and the user's profile 'testpo@example.com'. The main content area displays a table of users with columns for Email, First Name, Last Name, and Roles. The user 'testpo2@example.com' is highlighted, and their email address is circled in orange.

Email	First Name	Last Name	Roles
testpo2@example.com	IHA	Example2	Physican Organization Admin (redacted)
testpo3@example.com	IHA	Example3	Physican Organization User

**Step 4:** Navigate the **Roles** tab for the selected user. Then, select "Remove Role"

The screenshot shows the 'Roles' tab for the selected user 'testpo2@example.com'. The header includes the system name 'IHA PO Test' and the user's profile. The main content area displays a table of roles with columns for Role and Notes. The role 'Physican Organization Admin (redacted)' is highlighted, and the 'Remove Role' button is circled in orange.

Role	Notes
Physican Organization Admin (redacted)	

**Note:** For users associated with more than one PO, the administrator must individually remove users from each relevant organization.

# Next steps for Provider Organizations on the PRP

What to expect in the coming weeks

- **For Primary Users who do not currently have PRP access:**
  - In mid-July, Admin contacts at POs who do not already have an active PRP account AND filled out the Online Form will receive a **Welcome Email from Onpoint**.
  - If you are a **primary contact** at your organization and **have not yet filled out the Online Form**, please do so ASAP.
  - If you are a **primary contact** at your organization and **did not receive the Online Form**, please reach out to [amp@iha.org](mailto:amp@iha.org).
- **For current PRP Admin users:**
  - In the coming weeks, please log in and **confirm that the organization you manage is correctly displayed** in the upper right-hand corner of the PRP. If not, please reach out to [amp@iha.org](mailto:amp@iha.org).
  - Additionally, please confirm that the **appropriate contacts** at your organization are displayed in the PRP

# Wrap Up

# PRP Account Set Up Check List

## Upcoming Meetings

- July 27:** AMP Technology Migration: Get to know the Onpoint PRP
- Aug. 31:** AMP Preliminary Results Release Webinar

## Setting Up Your Organization for Success

- ✓ **June 17:** Primary contacts to complete the [System Administrator Sign Up Form](#) for the MY21 Onpoint Performance Reporting Portal
  - ✓ Please reach out to [amp@iha.org](mailto:amp@iha.org) if you are unable to access the form
- July 12-14:** System administrators to complete account set up on the [PRP website](#)
  - System administrators to finish their account set up
  - System administrators to confirm portal information is correct
  - System administrators to add, edit, deactivate users
- July 12-14:** Users can log in once system administrators set up user accounts for their organization

Thank you
