# MY 2022 AMP deliverables Timeline

# MY 2022 Questions and Appeals Period

## 9/20 Appeals Panel: Summary and outcomes

**AMP final results were released on the Onpoint Performance Reporting Portal on 10/31**

# MY 2022 incentive design

Return to **standard** IHA value-based incentive design methodology

- **Exclusion of Advancing Care Information (ACI) domain** when calculating Quality Composite Scores (QCS) results for AMP Commercial HMO POs
  - **Rationale:** Alignment with recent CMS suppression
  - **Impact:** A PO may earn up to 60 points for its performance on clinical quality measures and up to 30 points for its performance on patient experience measures, culminating in a maximum QCS of 90 points
- **Adjusted TCOC Trend Gate threshold**
  - **Standard POs:** Three-year average percent change in the Consumer Price Index (CPI) + 3%
  - **High-Cost POs:** Three-year average percent change in the CPI + 1%

Please refer to the [technical overview](#) for details.

# Coming soon: AMP Commercial HMO Awards for MY 2022

We're taking a new approach to celebrating our high-performing and most improved provider organizations (POs) this year.

- Awards notifications to POs went out on November 6.
- IHA will publicly recognize our awardees and all AMP participants beginning in mid-November through email, press release, and social media channels.
- We'll host a virtual awards ceremony during our Program Updates Webinar in January.

We've transitioned from one, annual conference to providing timely programmatic updates through our ongoing Stakeholders' Series, which includes our monthly AMP newsletters, a semi-annual IHA-wide newsletter, and other touchpoints.

The Participant Confirmation process ensures that IHA has all the health plan and provider organization information needed for successful AMP program data collection and reporting.

## Data Reporting

- *Awards*

# MY 2023 Participation Confirmation Timeline

**Goal:** Confirm contracting relationships between health plans and POs during calendar year 2023 for MY 2023 AMP reporting

# On the AMP Analytics Portal, participants are asked to:

1

Inform IHA of any structural changes to your PO. Examples:

- Name changes
  - Splits
  - Mergers/Acquisitions
  - Closures

2

Update your PO profile

3

Confirm health plan contracts

4

Update AMP contacts

- Authorize access to your historical AMP results and any external outreach by AMP staff

**Please note:** IHA will only report results for HPs and POs that have confirmed contracts. If contracts are missing, HPs may receive incomplete data. Additionally, POs without confirmed HP contracts will not receive results for the measurement year and, subsequently, may be left out of incentive payments or awards. Health plans and POs should work together to ensure the correct contracts and subcontracts are reported appropriately.

# Confirming HP<>PO contracts helps IHA ensure...

# Onpoint PRP and AMP Analytics Portal Use Cases

Please continue to update contacts on both portals

The PRP houses all results MY 2021 and beyond.

- Onpoint's Performance Reporting Portal (PRP) will now serve as the single source for AMP Program portal needs, allowing access to both **PO- and member-level reporting in one location.**

The AMP Analytics Portal will remain your historical data source

- IHA's AMP Analytics portal will contain **historical AMP results**—MY2020 and prior years'—for reference and QA purposes.
- **IHA will also continue using this portal for other items such as Participation Confirmation (contracting) and contacts management.**
